EXPERIENCE

PERFORMANCE

ELIGIBLE

GROUND-BREAKING TECHNOLOGY FOR MAXIMIZING POWER DENSITY

OVER 20% MORE POWER MAKES THE MOST OF ROOFTOP SPACE

REC ALPHA SERIES > FACTSHEET

The REC Alpha Series is a revolutionary hybrid solar panel which unites the leading cell technology to create the world's most powerful and reliable 60-cell panel:

- High power density maximizes energy generation from limited spaces up to 217 W/m²
- The most advanced cell structure for highest efficiency performance
- Over 20% more power than conventional panels
- More savings from your roof

Heterojunction cells

- Combine the best of crystalline and thin-film technologies
- Most efficient cell architecture for high performance

N-type technology = more power

- No LID protects panel from initial power loss
- You get the power you pay for

Unique Advanced Cell Connections

- Eliminates invasive soldering process for better build quality
- Reduces thermal stress on the cells for long-term durability
- Great aesthetics

Higher light transmission

• Special anti-reflective glass increases light transmission for higher power

Guaranteed better durability

- Super-strong frame withstands up to 7000 Pa
- Better protection against harsh weather
- Improves cell life for long-lasting high power

• Practically-invisible connections for the best choice for your home

Highest power density of 217 W/m²

- Highest power density on a 60-cell panel
- Pack in more power in limited or restricted spaces
- Generate more clean energy

Stunning appearance

- Leading temperature coefficient for more production when the sun shines strongest
- Better performance in hot climates

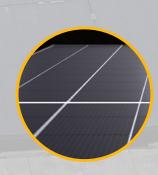

- Reduces internal resistance for more power and reliability
- Improved output when shaded

Environmentally-friendly

- Colossal 81% reduced lead content, only 0.02% by weight
- Energy-efficient manufacturing processes minimize carbon footprint

Industry-leading quality

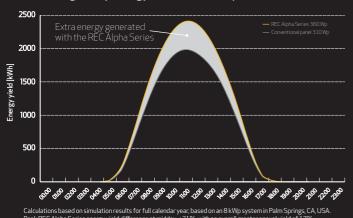

- Manufactured in REC's state of the art, energy efficient facility in Singapore
- Highly automated production improves efficiency and reliability
- Lowest warranty claims rate in solar

GREATER ANNUAL YIELDS FROM DAWN TO DUSK

The REC Alpha Series packs in more energy generation than ever before. With no LID, a leading temperature coefficient and the highest 60-cell power density, it is ideal for the best energy yields and making the most of available rooftop space.

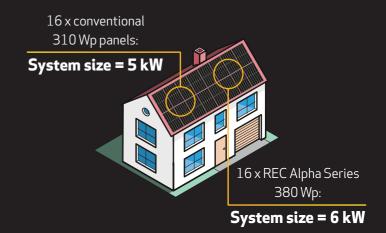

Average Daily Energy Production Comparison Over One Year

+20% MORE WITH THE REC ALPHA SERIES!

MAXIMIZE SYSTEM POWER FOR MAXIMUM SAVINGS

Optimum use of rooftop space is key to a good solar installation. The REC Alpha Series allows you to pack in as much power generation as possible, generating more energy and more savings on your bills.

The comparison is clear: even in a regular residential installation, the REC Alpha Series offers $1\,\mathrm{kW}$ more power than conventional panels for more energy and more savings.

15% MORE WARRANTED POWER AFTER 25 YEARS

The lowest claims rate in the industry justifies leading warranty terms. REC's warranty offering reflects this leadership and supports our premium product quality.

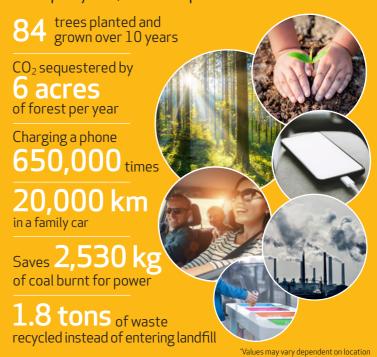

Exclusive to REC Certified Solar Professionals, the REC ProTrust Warranty offers enhanced product and labor coverage*, ensuring peace of mind and a lifetime of high power generation:

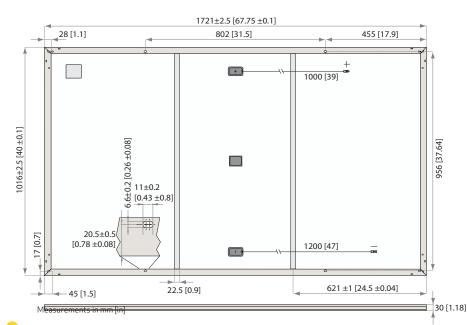

- 25 years performance warranty
- 25 years product warranty
- Up to 25 year labor warranty*

MAKE MAJOR REDUCTIONS TO YOUR CO₂ FOOTPRINT

A 6 kW REC Alpha Series installation creates over 7,200 kWh of clean energy per year, cutting the CO_2 emissions of a home by 4.3 tons per year, or the equivalent of:

GENERAL DATA

Cell type:	120 half-cut cells with REC heterojunction cell technology	Connectors:	Stäubli MC4PV-KBT4/KST4(4mm²) in accordance with IEC 62852 IP68 only when connected
Glass:	6 strings of 20 cells in series 3.2 mm solar glass with	Cable:	4 mm² solar cable, 1.0 m + 1.2 m
Backsheet:	Highly resistant polymeric construction	Dimensions:	1721 x 1016 x 30 mm (1.75 m²)
Frame:	Anodized aluminum (black)	Weight:	19.5 kg
Junction box:	3-part, 3 bypass diodes, IP67 rated in accordance with IEC 62790	Origin:	Made in Singapore

LOW LIGHT BEHAVIOUR

REC Group is an international pioneering solar energy company dedicated to empowering consumers with clean, affordable solar power in order to facilitate global energy transitions. Committed to quality, innovation and an industry-leading warranty, REC offers photovoltaic modules with leading high quality backed by the lowest known warranty claims rate in the industry. Founded in Norway in 1996, REC employs 2,000 people and produces 1.8 GW of solar panels annually. With over 10 GW installed worldwide, REC is empowering more than 16 million people with clean solar energy. REC Group is a Bluestar Elkem company with headquarters in Norway, operational headquarters in Singapore, and regional bases in North America, Europe, and Asia-Pacific.
